Last Sunday was a sunny day and the sky was cloudless. Mr and Mrs Chan were at home. They were watching TV. Mrs Chan said, "See! The weather is very good today! Let's go hiking! I am sure that the air will be very fresh outside." "I think you are right. I want to go to the Big Buddha the most. Let's go to Lantau Island for hiking and taking photos with the Big Buddha!" Mr Chan replied. They went to Lantau Island by bus and ferry. They were very excited.

When they arrived, they saw some beautiful flowers that they haven't seen before. Mrs Chan loves flowers so they went there and took some pictures. "Wow! The flowers are so pretty. What is the name of the flowers?" "I think they are the pink roses. Look! There is a big grassland! Let's also take some photos there!" Mr Chan shouted and pointed to the grassland. "Sure! Let's go! it's so big!" Mrs Chan agreed.

After they took some photos, Mrs Chan saw a very cute dog walking on the road alone. "I want to take photos with that dog too! It is very special!" she said. "Good idea!" Mr Chan said. They walked closer to the dog but it ran away when it saw them. "Wait! Let's chase it" Mrs Chan said. After chasing for a few minutes, they still couldn't see the dog. They gave up. But then, they found that they got lost.

"Oh dear! We get lost! What can we do? I leave my phone at home! Where is the map?" Mrs Chan asked. "You didn't ask me to bring the map! And my phone has run out of battery!" Mr Chan said. They were very nervous and didn't know what to do. They felt hungry and cold. It was 4pm already. They tried to calm down but they couldn't. suddenly, a man and a woman came. "Sorry. Do you know how I can get to the Big Buddha?" Mr Chan asked. "Yes. Walk straight ahead and turn left, and then walk a few kilometres. Then you will arrive. We just came here from the Big Buddha!" the woman said. "Thank you!" said Mrs Chan. They finally got to the Big Buddha and had a happy trip.

After this experience, Mr and Mrs Chan noticed that they should pack their things well. If they brought their maps and phones, they wouldn't get lost. They will never forget this terrible day.

Last Sunday, Mr Chan said, “Today’s weather is good and I want to go hiking to make me stronger.” Mrs Chan replied, “OK! We have never been to Lantau Island. Let’s go hiking on Lantau.” Mr Chan said, “Let’s get the bus to Lantau Island.” When they go to Lantau, they went hiking to the Big Buddha. They both felt very happy and relaxed.

On Lantau Island, they saw many flowers and cable car. Mr Chan asked, “How far is it from here to the Big Buddha?” Mrs Chan saw the map and replied, “Its not far. Its about one and a half kilometres.” Suddenly, a dog stole Mrs Chan’s phone and ran away. Mrs Chan shouted, “Oh! The dog stole my phone.”so they chased the dog. Then they caught and took back her phone. But Mrs Chan said, “Where are we?” Mr Chan said, “I don’t know. Maybe we get lost.” Their phone were dead because they’ve been playing with their phones on the way. They felt regretted.

Next, they took a compass and followed the direction of the compass. Suddenly, it rained heavily. They didn’t bring umbrella so they ran away. Mr Chan said, “There is a gazebo. Let’s take shelter from the rain.” Mrs Chan said, “OK!” In the afternoon, they were hungry and thirsty but they only brought a little food and water. They regretted to bring so little of them.

In the end, the rain stopped and they went to find the visitor centre to ask the information officer. Mr Chan asked Mrs Chan, “Do you remember where the visitor centre is?” Mrs Chan replied, “Probably yes.” After that, they saw a man and asked him where the Big Buddha was. The man said, “I don’t know but I know where the visitor centre is.” So they went there with the man. In the visitor centre, they asked the information officer. He gave them a map. At last, they went to the Big Buddha.

They learned to bring everything they needed before going out.

Hong Kong is a wonderful place. You can find many interesting attractions in Hong Kong, such as Disneyland, Tai O and Cup Noodles Museum. But I think the most interesting place in Hong Kong is Sai Kung.

Sai Kung is in the eastern part of the New Territories. It is near the sea. I have been to Sai Kung twice. Last year, I went there by bus with my family.

We can do many activities in Sai Kung, for example take a junk boat to explore the beautiful sea. You can rent different sizes of boats and the whole family can sit together in one boat. Also, we can do some water sports in the sea, such as swimming, canoeing and kayaking. Other than doing water sports, we can go hiking to enjoy the fresh air and visit the famous country park.

Sai Kung is near the sea, so we can buy and eat some fresh seafood. They are tasty. Also, we can try some dim sum and Chinese tea at the Chinese restaurants. They are tasty tea.

I have been to Sai Kung with my family for a few times. One of my memorable experiences was doing water sport. I paddled the canoe with my family. It was fun. The wind was cool, so I felt comfortable. The view was beautiful and I was pleased.

Sai Kung is an amazing place in Hong Kong. It is suitable for friends and families. I am delighted that I could introduce Sai Kung to my friends. I hope I can go to Sai Kung again.

Hong Kong is an amazing place. There are a lot of interesting and beautiful attractions, such as Sai Kung, the Space Museum or The Peak. But I think the most amazing place is Hong Kong Disneyland.

Disneyland is the largest theme park in Hong Kong. I have been to this famous place more than ten times. Usually my dad drives us to Hong Kong Disneyland and sometimes, we take the MTR. You can also choose to take the bus. Which is very convenient.

In Disneyland, you can watch the parade cosplayed by Disney characters and it lights up in time to the music and the light effects on the performers. Besides, you can see the nightly fireworks. There are many fun rides to enjoy at Disneyland, like Iron Man Experience, Ant-Man, Hyperspace Mountain. After that, you can go shopping at Disneyland. There are a lot of different souvenirs to remember your special day. There are many choices of food to eat at Disneyland. There are many restaurants in the park which serve foods from around the world. I believe that you will have an unforgettable day at Disneyland.

I still remember the last time I spent a whole day at Disneyland and bought my favourite "sheriff woody" character soft toy to remember my special day! I also ate delicious western food. Hence, it was a fun and fulfilling day.

No matter how many times I come, I am still excited, and I will come again when I have time. Also, I highly recommend my friends to visit Hong Kong Disneyland.

*Siobhán Bernadette Haughey* is my hero. She is a stunning swimmer in Hong Kong. She started swimming training when she was six years old. In 2013, she won a gold medal and broke the record in the 100-metre freestyle at the World Junior Swimming Championships. Three years later at Rio Olympics, she finished with the sixth in semifinals of the 200-metre freestyle. She made the history as the best Hong Kong swimmer ever in the Olympics. In 2021, she got the silver medal in the 200-metre freestyle and 100-metre freestyle. She is the first Hong Kong swimmer to win two medals in the Olympic!

Siobhan's practice is very hard. When she was studying in the secondary school, she went to the swimming practice from five to eight o'clock in the early morning and then practiced again right after school. Also, she often had to get up at 3am to do her homework, in order to catch up her studies. Even she was busy with the practices, she never gave up her studies. She graduated from the University of Michigan in 2019, majoring in psychology. In 2017, she got hurt and gave up the Asian Games. However, she joined the USA Swimming Competition after a month and got great results.

Siobhan is a hardworking person. She is very disciplined and determined. Once she makes up her mind to do something, she will do her best to achieve it. I really appreciate Siobhan and I want to do the same. I am going to work hard and I hope I can achieve my dream in the future.

Albert Einstein, was born in Ulm, Wurttemberg, Germany on 14 March 1879. While he passed away in Princeton, New Jersey, U.S. on April 18, 1955. He is a German-born physicist that dedicated his life to inventing and solving theories that ended up helping the world a lot.

In my opinion, two of the most important dates to Albert Einstein occurred in 1919. Not only did he divorce Mileva and marry Elsa, but also there was a Solar eclipse that confirmed Einstein's predictions on the deflection of light rays which caused his remarkable jump to world fame.

As an INTP, Albert Einstein's brain is one of the most intelligent minds in the world because he managed to come up with and solve some theories that have puzzled humanity for hundred of years, therefore meaning he has changed how we view the world, which makes him being one of the only people that impacted our view of the reality around us. He is extraordinarily determined because even though he couldn't find a job after graduating, he still didn't give up his passion for science.

He has contributed a ton of information to society. Just to name a few, providing empirical evidence for the atomic theory, coming up with the concept of rest energy through his infamous equation, enabling the determination of Avogadro's number, therefore, meaning the size of molecules, solving the riddle of the photoelectric and whatnot. Not only did he contribute to many theories, but also he paid an effort to win many awards. Like the Nobel Prize, the Copley Medal, the Matteucci Medal, the Gold Medal of the Royal Astronomical Society, the Max Planck Medal, the Benard Medal for Meritorious Service to Science and the Franklin Medal.

Albert Einstein spent his final years working, sailing, and enjoying life, which were the things that he had been wanting to do. In 1932, he was offered a position at the Institute for Advanced Study in Princeton, and he was accepted. He became a resident of the U.S. in 1935 and was granted citizenship in 1940.

One world-widely known quote from Albert Einstein is “The only sure way to avoid making mistakes is to have no new ideas.” I think that this quote is very accurate no matter how you slice it since you will always make mistakes, but you just need to keep going on and don’t look back.

Sarah Lee is my hero who is the famous cyclist. She was born on 12<sup>th</sup> May 1987 in Hong Kong.

I think she is a perseverant person. She never gives up when she faces difficulties. She tries her best to finish the competitions.

Sarah Lee is an outstanding athlete. In 2014, 2018 and 2021, she won a lot of medals. In 2010 Asian Games, she set Asia new record and she won the gold medal. In 2018 Asian Games, she also won the silver medal. In 2021 Tokyo Olympic, she won the bronze medal.

Sarah also had a lot of difficulties when she was young. She has had the anemia since she was young, so after each high-intensity training or competition, it takes much time for her to recover. However, she did not see it as a hindrance. In 2006, she suffered a fractured wrist when she accidentally rolled over during a training session and failed three surgeries. Therefore, the coach advised her to retire but she refused because she never gives up.

I learn that no matter what happens, I do not give up. I admire her because she works hard to overcome difficulties.
